sanveekarandikar71@gmail.com

Software Development Passionate

SKILLS

- Programming languages : C, C++, Python
- AI/ML Tools : OpenCV, Scikit-Learn
- Frameworks & Libraries : Pandas, Numpy, Matplotlib

EDUCATION

BACHELOR OF
TECHNOLOGY(B.TECH)

ST. VINCENT PALLOTTI
COLLEGE OF ENGINEERING

EXPECTED GRADUATION :
2026

PROJECTS

1. Personal Finance Management
2. Object detection with webcam
3. Netflix Recommendation system
4. Real-time Face detection system

SOFT SKILLS

- Problem solving
- Teamwork and collaboration
- Adaptability
- Time management

SUMMARY

I am a B.Tech student at St. Vincent Pallotti College of Engineering, Nagpur (2026), passionate about AI, ML, and software development. Skilled in C, C++, Python, I've built object detection, face detection, and a Netflix recommender. Currently working on a Tsunami Prediction System using ML.

CAREER OBJECTIVE

A passionate and driven B.tech student seeking to deepen my expertise in Artificial Intelligence, Machine Learning, and explore new programming languages. Eager to apply theoretical knowledge to practical challenges and contribute to innovative projects.

CERTIFICATIONS & TRAINING

1. Focus on AI/ML, Python, and software development
2. Building an agile mindset
3. Building creative confidence
4. Digital marketing

Languages

English, Hindi, Marathi
